AUSTRALIAN SECURITY INDUSTRY
ASSOCIATION LIMITED

LET US HELP SECURE YOUR FUTURE

OnSecurity Group is a trusted provider of integrated electronic security solutions delivering reliable, scalable, and compliant systems for domestic, commercial, industrial, government and critical infrastructure environments.

We specialize in the design, installation, commissioning, maintenance, and support of advanced security technologies that secure people, assets, and operations. Our team combines technical expertise with industry best practices to deliver tailored security outcomes aligned with client requirements and regulatory standards. Our team combined has over 20 years experience and pride ourselves with knowledge of the forever advancing security technologies

CORE CAPABILITIES

ELECTRONIC SECURITY SYSTEMS

- Access Control Systems
- CCTV & Video Surveillance
- Intrusion Detection & Alarm Systems
- Intercom & Visitor Management
- Perimeter Detection & Electric Fence Systems
- Fire Detection Systems

NETWORK & INFRASTRUCTURE

- Certified Structured Cabling
- Fibre Optic Installation
- Network Cabinet & Rack Solutions
- Wireless Security Connectivity
- Power & UPS Integration
- Structured cabling Testing

DIFFERENTIATORS

- Experienced and certified technicians
- End-to-end project delivery capability
- Rapid response maintenance support
- Compliance with Australian Standards
- Scalable and future-ready solutions
- Strong focus on safety and quality assurance
- Vendor-neutral technology recommendations

SECURITY TECHNOLOGY SERVICES

- System Design & Engineering
- Installation & Integration
- Preventative Maintenance
- 24/7 Technical Support
- 24/7 System Monitoring
- System Upgrades
- Testing & Commissioning

INDUSTRIES SERVED

- Government & Defence
- Commercial Buildings
- Healthcare Facilities
- Education Campuses
- Industrial & Manufacturing
- Retail & Shopping Centres
- Body Corporates
- Critical Infrastructure
- Domestic Housing

ONSECURITY GROUP SERVICES

PERIMETER PROTECTION

Stop intruders at the perimeter of the premises.

At On Security, we offer an extensive selection of Gallagher monitored pulsed fences, ranging from 11 string topper fences to 51 string electric fences. Our premium solutions guarantee comprehensive coverage, regardless of your perimeter's length. With boundary alerts, we equip you with the capability to respond immediately and prevent incidents before they occur.

CCTV

View, record and playback events around your premises.

With reliable surveillance capabilities, CCTV captures and records motion triggered images, enabling live viewing and playback. Our CCTV solution provides a range of smart features, including line crossing detection with real-time notifications, facial recognition, license plate recognition, people counting and thermal imaging. We partner with AXIS to provide the highest quality CCTV solutions.

INTRUDER ALARMS

Alert, monitor and deter intruders in real time.

We understand that each site is unique when it comes to designing and installing an intruder alarm system. Our expert team provides comprehensive risk assessments tailored to your site to deliver the most effective solution and detect an intrusion as quickly as possible. We provide a range of system variations including motion detection, seismic detection, door contacts, glass break detection, photoelectric beam detection and perimeter detection.

ACCESS CONTROL

Control personnel entering and exiting doors.

Our access control integrations allow you to seamlessly regulate the movements of staff, visitors, contractors and vehicles across your sites. From overseeing key access and locker management to accommodating a wide range of business needs, our advanced systems offer endless flexibility and capabilities. Our team will partner with you to design and implement a complete turnkey solution tailored to your business.

INTERCOM SYSTEMS

Visually authenticate personnel at entry points.

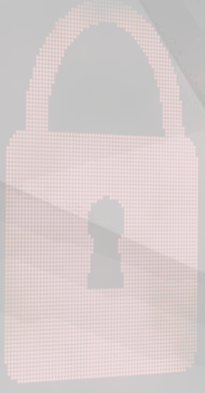

Our cutting-edge intercom system solutions allow you to effortlessly identify individuals at the entrance of your premises without the need to physically be present. Providing convenience and security, our systems deliver crystal-clear audio and advanced video capabilities allowing you to accurately verify visitors and manage access.

SERVICE AND MAINTENANCE

Keep your systems up to date and your premises secure.

At On Security, we pride ourselves on our holistic approach to integrated security solutions. We provide tailored service and maintenance solutions for all our security systems, guaranteeing that your premises remains as secure as the day the systems were installed. With comprehensive maintenance plans and a 24/7 call out capability, you can have complete peace of mind knowing that your site is consistently protected.

In closing, OnSecurity Group has the proven capability, specialised electronic security expertise, and commitment required to successfully deliver any project. Our experience in designing, installing, integrating, and maintaining electronic security systems ensures we can provide secure, reliable, and compliant outcomes tailored to your tailored requirements. Combined with our strong focus on quality, safety, regulatory compliance, we are confident in our ability to deliver efficient, future-ready, and value-driven electronic security solutions.

We look forward to the opportunity to partner with you and deliver a successful project outcome.

Helping Secure The Future

Please do not hesitate to contact our teams directly if you require any additional information or have any questions. We would be pleased to assist you and look forward to hearing from you
